### **DETAILED ACTION**

1. Claims 1, 3-14, 16-27 and 29-37 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant's arguments that Lee and Subramaniam do not teach the claimed limitations are persuasive with respect to an act of receiving a request for content from the client system, the request being received in accordance with a first communication protocol, which is a secure protocol and an act of receiving a response from the particular back-end server in accordance with the second communication protocol. the response including the requested content and one or more resource identifiers that are specific to the first communication protocol, but wherein the back-end server would respond to the request from the front-end server with resource identifiers specific to the second communication protocol if the protocol information was not included in the request. None of the prior arts of record teach or suggest the claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Examiner's Amendment**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jens Jenkins on 09/01/2004.

4. The application has been amended as follows:

In the claims:

I. Claim 33, line 1, replace "33 " with --27--.
